We are pleased to announce “**Compassionate Hearts Network**” (**CHN**) to find and help the underprivileged among us to meet their basic needs. CHN is an organization setup to help people in need. We believe that it is our responsibility to help the underprivileged with their basic necessities like food, clean water, clothing, healthcare and shelter.

Our mission: Compassionate Hearts Network is committed to helping people in need regardless of race, sex, ethnicity, nationality, or religion. In doing so, we hope to mirror God’s love to the world.

Our focus: WE hope to help people achieve the state of life and health by which they can stand up on their feet and help themselves. We look forward find the deserved and to provide assistance with education and career training so they can be self-sufficient. We also strive to feed the hungry, clothe the naked and help the homeless build a shelter.

What makes CHN different: With thousands of charity organizations around us functioning on a larger scale, CHN is unique in its endeavor to help the needy on a one to one basis. There are lots of people we know who are struggling for basic necessities. We aspire to reach out to them personally, and provide for their needs. Our commitment to every supporter is that 100% of the funds go to the needy and no part of the donations will be used for administrative expenses.

How you can help: If you know anybody in need, feel free to let us know and together we can help them. You can also get involved in one of our projects at hand by sponsoring a project or donating for it.

Types of projects:

- Housing Construction
- Education help/sponsorship
- Marriage help (Girls)
- Medical assistance
- Employment assistance (Vocational Training)

We keep our supporters and the beneficiaries in our prayers and also accept prayer requests for any specific needs.
